Why have you chosen NID's Bachelor of Design Programme?

I've chosen NID's Bachelor of Design Programme because it aligns perfectly with my passion for creativity and problem-solving. NID's emphasis on hands-on learning, exploration, and innovation inspires me to think beyond conventional boundaries. The programme's diverse curriculum, exposure to various design disciplines, and focus on human-centric design resonate deeply with my aspirations to create meaningful, impactful solutions. I admire NID's reputation for nurturing designers who shape industries globally, and I'm excited to be part of a community that values collaboration and originality. I believe this journey will not only refine my skills but also help me grow as a thinker, a learner, and a contributor to the design world.

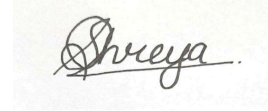

How do you think this course will help your academic plans and/or career ambition?

I believe NID's Bachelor of Design programme will be instrumental in shaping both my academic journey and career aspirations. Its interdisciplinary approach will provide me with a strong foundation in design principles while allowing me to explore various specializations, helping me discover my unique strengths and interests. The course's emphasis on practical projects, industry exposure, and collaborative learning will prepare me to tackle real-world challenges creatively and effectively. I'm particularly excited about the opportunity to engage with experienced mentors, cutting-edge tools, and a diverse peer group, all of which will help broaden my perspective and enhance my skills. In terms of my career, this programme will equip me with the knowledge and confidence to excel in the competitive design industry. Whether it's innovating user experiences, crafting sustainable designs, or contributing to socially impactful projects, NID's curriculum will empower me to make meaningful contributions and stand out as a designer.

Please write a brief statement about yourself including details of your interests, hobbies, etc.

I'm a curious and creative individual with a strong passion for exploring ideas and solving problems through design. Ever since I was a child, I've been fascinated by how thoughtful design can transform everyday experiences. This curiosity has grown into a deep interest in areas like visual storytelling, user-centered design, and sustainable innovation. In my free time, I love sketching, experimenting with photography, and immersing myself in art and design documentaries for inspiration. I also enjoy reading about psychology and culture, as it helps me understand diverse perspectives, which I believe is essential for a designer. Additionally, I'm an outdoor enthusiast who finds joy in nature and its influence on creative thinking. My hobbies and interests fuel my desire to create meaningful, impactful designs that connect with people on a deeper level.

I certify that I have read and understood the information given in "National Institute of Design Admissions Handbook 2025-26".
